## SUMMARY :

I am a passionate Front-End Developer and Machine Learning Engineer skilled in JavaScript, Python, and AI-driven solutions. With a strong background in developing intuitive web applications and scalable machine learning models, I am dedicated to driving innovation and enhancing user experiences through my work.

## EXPERIENCE :

### Machine Learning Intern

**Edunet Foundation – Feb 2025 to Mar 2025**

Focused on medical diagnosis utilizing machine learning

- Conducted data preprocessing, augmentation, and model evaluation.
- Deployed a user-friendly web application for medical diagnosis using AI with 95% accuracy.

### Web Development Intern

**Web Blinders – to Present**

Interning in web development, collaborating with senior developers to build responsive user interfaces and enhance application functionality.

## EDUCATION :

B.tech(AIML)

**G.Pulla Reddy Engineering College**

📅 08/2022 – 05/2026 📍 Kurnool, A.P

Intermediate

**Narayana Junior College**

📅 06/2020 – 05/2022 📍 Anantapur, A.P

SSC

**L.R.G English Medium High School**

📅 06/2019 - 05/2020 📍 Anantapur, A.P

## PROJECTS :

**AI-Powered Medical Diagnosis System | [Link](#)**

Implemented a system utilizing machine learning to analyze patient data.

**Todo List App**

A task management application to organize daily schedules using HTML,CSS,JavaScript.

**AI AGENT | [Link](#)**

Implemented an AI agent for various automated tasks using Playwright and browser technologies.

## CERTIFICATIONS :

**NPTEL Ethical Hacking**

Course on Ethical Hacking

**Responsive Web Design Developer Certification**

Certification from freecodecamp

**Python Programming Certification**

Certification from Infosys Springboard

**Tata Data Visualisation: Empowering Business with Effective Insights**

Job simulation focusing on data visualization in business

## SKILLS :

- **Programming Languages :** Java, Python, C
- **Web Technologies :** HTML, CSS, JavaScript
- **Database :** SQL
- Basics of Data Structures and Problem Solving.
- Communication Skills
